

# THE TROUTDALE CHAMPION

NOVEMBER / DECEMBER 2022

## Ring in the Holidays at Winder-Wonderland

**Winder-Wonderland & Tree Lighting**  
**Saturday and Sunday,**  
**December 3, 4, Noon until 6 p.m.**

A holiday favorite is back – and it's bigger and better than ever! Troutdale's Wind-er Wonderland and Tree Lighting, benefitting SnowCap Community Charities, will take place in Historic Downtown Troutdale from Noon to 6 p.m. on Saturday, December 3 and Sunday, December 4.

A highlight of the event will be our holiday market that will be held inside the former Troutdale General Store at 289 East Historic Columbia River Highway. This market will feature two floors of local vendors selling handcrafted gifts, holiday music, and an activity area for the kids. The first 500 people through the door each day will receive a free swag bag filled with goodies and deals from our sponsors.

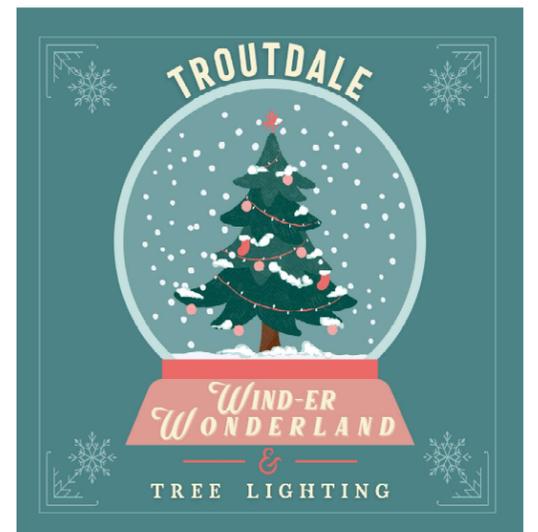

The holiday magic will transform one of our downtown storefronts into Santa's headquarters. Kids of all ages can follow the signs to the North Pole and visit with Santa and Mrs. Claus, and grab a selfie or two.

The festivities will extend to the rest of our downtown as our businesses square off in a holiday window decorating competition and take part in our Troutdale Teddy scavenger hunt. Everyone who completes the activity will receive a free Troutdale-themed gift. A different gift will be available each day.

The weekend culminates with the City's traditional tree lighting ceremony in Mayors Square at 5 p.m. on Sunday, December 4. You won't want to miss this community event as we light up our beautiful, live blue spruce!

If you want to get an early start on your holiday shopping be sure to check out First Friday Inside Edition at downtown Troutdale's art galleries and shops on Friday, December 2 from 5 p.m. to 8 p.m.. Stay out of the wind and find some great gift ideas, special art exhibitions, live music, and perhaps a small bite and glass of wine.

We encourage everyone who attends the event to consider bringing a donation for SnowCap Community Charities. They will gratefully accept cash donations as well as hygiene items (like soap, shampoo, disposable razors, toothpaste, toothbrushes, feminine hygiene products and deodorant), small toys, canned goods and non-perishable items (especially canned proteins), and warm winter clothing like coats, hats, gloves and scarves.

- Holiday Market at Troutdale General Store
- Activity Area for kids
- Live Holiday Music
- Troutdale Teddy Scavenger Hunt for kids
- See Santa and Mrs. Claus
- Holiday Tree Lighting on Sunday
- Please bring a donation for SnowCap!

We hope to see you there! Stay tuned to [troutdale.info/winderwonderland](http://troutdale.info/winderwonderland) and our Facebook and Instagram pages for more updates.

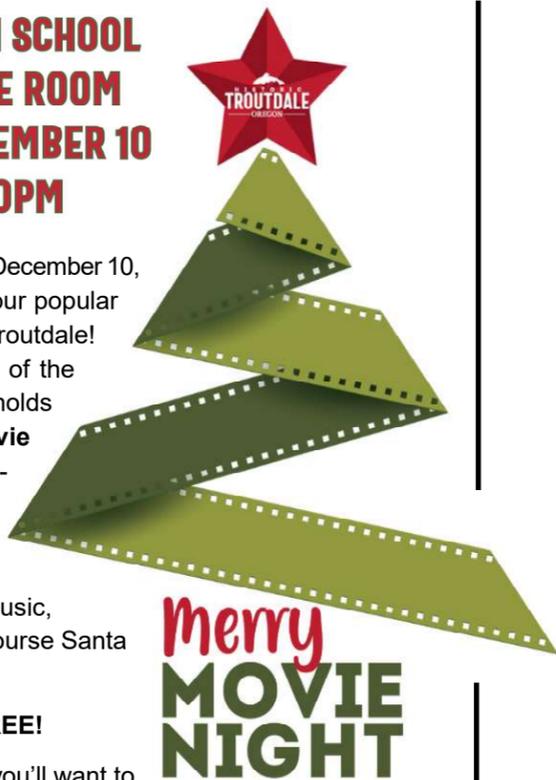

**REYNOLDS HIGH SCHOOL**  
**MULTIPURPOSE ROOM**  
**SATURDAY, DECEMBER 10**  
**4:00 – 8:00PM**

Save the date for Saturday, December 10, from 4 p.m. to 8 p.m., as our popular holiday event returns to Troutdale! We'll be decking the halls of the multipurpose room at Reynolds High School for **Merry Movie Night** – an evening of holiday films (**Frosty's Winter Wonderland, and Home Alone**), festive activities for the entire family, holiday music, hot cocoa, treats, and of course Santa and Mrs. Claus!

**The best part? It's all FREE!**

And just a few days later, you'll want to keep an eye out for the **Winter Recreation Guide** which will be hitting mailboxes the following week!

There will be more details to come, so stay tuned to [troutdaleoregon.gov/holidaymovie](http://troutdaleoregon.gov/holidaymovie) and @CityofTroutdale on Facebook and Instagram.

## Multnomah County launches SW 257th Safety Improvements Project

By Sarah Hurwitz, Multnomah County Transportation Public Information Officer

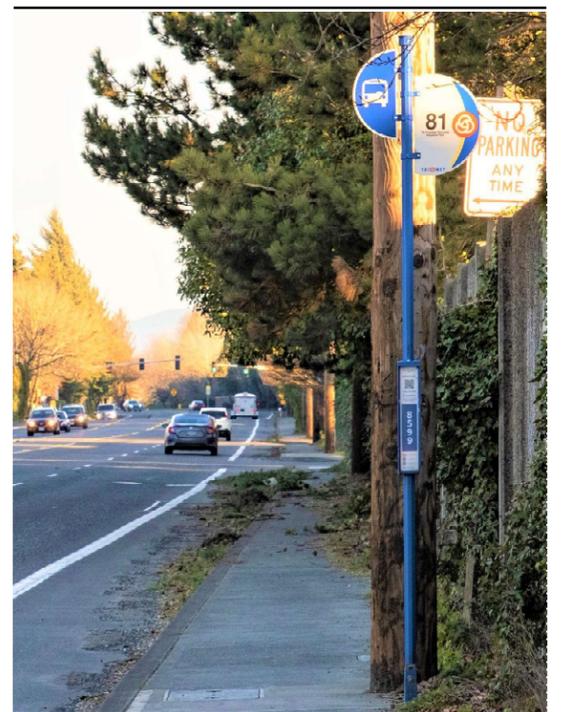

Multnomah County is leading an effort to improve the safety of the SW 257th Drive corridor

There isn't easy access to transit as well.

The \$6 million safety improvement project will include repaving SW 257th Drive between SW Cherry Park Road / SW Sturges Drive and SE Stark Street. Multnomah County will also be installing new lighting, improving accessibility at existing signalized intersections, constructing new curb ramps and removing barriers on sidewalks throughout the corridor. **Construction is expected to begin in spring 2024.**

The project just wrapped up its first phase of outreach where Multnomah County looked to the community to play a major role in shaping this project. The County gathered input from those who drive, walk, bike or use a mobility device along the corridor, to help identify issues along SW 257th. In October, Multnomah County hosted two walking tours of the project site. This was an opportunity for elected leaders and the community to walk along the corridor with project leaders, get a general overview of the project and provide feed-

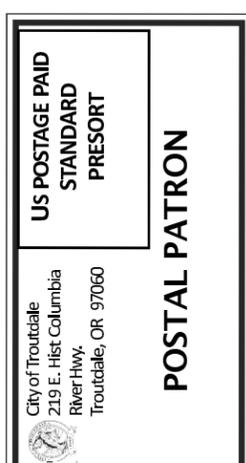

back on areas that need improvement. SW 257th is one of the most heavily traveled Multnomah County roads in Troutdale, serving as a critical connection to I-84 and U.S. 26. Currently, it's difficult for pedestrians and cyclists to navigate the corridor. The sidewalks are partially blocked by utility poles and vegetation. Bike lanes are narrow and have little protection from traffic.

Above, Photo of SW 257th Drive corridor. There will be another opportunity for community input in January 2023. Photo by Multnomah County

## Don't Forget to Vote in the November 8 General Election!

There is still time to have your vote counted! Ballots can be mailed as long as they are postmarked on or before November 8, no postage necessary. Ballots can also be returned to an Official Ballot Drop Site no later than 8 p.m. on Election Day. Please visit [www.Multco.Us/dropsites](http://www.Multco.Us/dropsites) for a list of locations. In Troutdale, we have one located at the Multnomah County Library - Troutdale, 2451 SW Cherry Park Road. Please use the 24-hour book drop slot to deposit your ballot.

The City of Troutdale is excited to welcome David Berniker as our new Director of Community Development. He brings over 25 years of experience in the areas of urban and sustainable design, community and land use planning, and architecture.

In addition to his vast experience, David brings with him an enthusiasm for collaborating with all stakeholders to create places that reflect the community's vision.

"My passion is working with all stakeholders to make great places that reflect all the people that live and work in a city and its surrounding area," he says. "I love to focus on design and livability – how we can make a great place for a wide range of people."

He achieved this in his former role as Director of Urban Design and Planning for the City of Gresham where he helped launch the **One Gresham Initiative**, a redevelopment, and social strategy that links the city's three commercial centers: downtown, the Civic Neighborhood, and Rockwood.

## Troutdale Welcomes a New Director of Community Development

David oversaw a variety of transportation projects in Gresham, including plans to enhance walking and biking in Gresham as well as the city's 20-year blueprint for creating a balanced transportation system. That plan includes strategies to improve neighborhood connections and facilitate the movement of people and freight while giving motorists, pedestrians, and cyclists an equal opportunity to get around.

His goal is to help bring these kinds of opportunities to Troutdale.

"Everyone knows Troutdale has a great main street," he says. "And with new opportunities at the Confluence Site and existing places outside of downtown like McMenamins Edgefield, Troutdale Station, and scenic areas along the historic highway, you have a place that is fantastic now, but also has so much untapped potential."

The next step, he says, is "tying it all together to make an extraordinary place for Troutdale and East County."

In addition to his work in Gresham, David has previously served as an urban design planner for the City of Hillsboro. He also ran his own urban design firm and worked as a planner and urban designer for some of Portland's most innovative architecture and planning firms.

David grew up on the East Coast before moving to the Bay Area as a teenager. He majored in environmental studies at UC Santa Barbara and earned a master's degree in urban planning at UCLA and a master's in architecture from the University of Oregon.

When not working, you might find David riding his bike along Historic Columbia River Highway, hiking with his dog, or playing golf – in his words – very badly.

"I love to focus on design and livability - how we can make a great place for a wide range of people."  
*David Berniker*

## Let's talk about abandoned vehicles - and leaves

The leaves are turning and starting to fall as we head into the equinox that begins winter. **Please do not blow leaves into the street.** Not only do we have an ordinance that prohibits it, but it blocks the storm drains which creates problems for our Public Works Department. Avoid flooding in your neighborhood. **Keep storm sewer outlets near your home free of debris and leaves.**

### Joe's Notebook

I would also like to encourage everyone to put away their campers and trailers and not store them on the street unless you are preparing to go camping or hunting. This includes "utility trailers" which cannot be stored on the street even if you leave them attached to your vehicle.

**Parking continues to be the most frequent complaint**, including vehicles that haven't moved in longer than 96 hours, parking in the wrong direction, blocking mailboxes, parking at a 90-degree angle to the curb in a cul de sac, etc.

**The DMV IS OPEN!** If you have expired or temporary tags, or no license plates, your car could get

tagged as an "Abandoned Vehicle" by definition:

**TMC 10.04.020 - Abandoned vehicles.** A vehicle that has been deserted, relinquished or has one or more of the following existing conditions: the vehicle license plate or registration sticker has expired or has been canceled; the vehicle has no license plate; the vehicle has no visible vehicle identification number (VIN); the vehicle appears to be inoperative or disabled; the vehicle appears to be unlawful to operate on a public street.

I would rather not write parking citations, however I do respond to all complaints. Thank you in advance for your cooperation.

## When the Snow Hits the Streets

It may not come until January - or even February, but when winter weather strikes, the big question on everyone's mind is: will my street be plowed and sanded? To get your answer, go to: [www.troutdaleoregon.gov/gis/page/interactive-web-maps](http://www.troutdaleoregon.gov/gis/page/interactive-web-maps) and select "Snow and Ice Priority Routes".

**Major streets are cleared first** as those serve the greatest number of users and are the most critical to mobility: 257th, Troutdale/Buxton, Stark, Cherry Park, Halsey, and Columbia River Highway are County maintained roads. But City crews will plow and sand county roads if the County's forces are occupied elsewhere.

**Emergency Response and Public Facilities** are cleared next, such as the Police Station, Fire Station, City Hall, and schools.

**Collector streets**, which provide connections to local streets come next. Among the collector streets are Beaver Creek Lane, Chapman Avenue, Corbeth Lane, Evans Avenue, Lewellyn Avenue, and Sweetbriar Lane.

**Local streets are near the bottom of the priority list** and, in most cases, warming temperatures and/or rain will remove the snow or ice before snow removal crews can get there.

**Response time and crew deployments** are determined by the storm's intensity. The City runs street crews when and where snow removal is needed. During larger snow and ice events, crews

work around the clock until the danger has passed and the streets are cleared to city standards.

**Citizens can help** by driving only if it's absolutely imperative right after a snow event. If driving is unavoidable, exercise caution, using all-wheel-drive vehicles or traction devices whenever necessary; this helps both travelers and city workers. The best thing that citizens can do to help everyone during storms and street clearing is to **park vehicles off the street.** Cars and trucks parked on the street during plowing operations pose a risk to both the public and plowing equipment.

**The City cannot** remove snow and snow piles from sidewalks and driveways, even after the snowplows come through. Nor can the city plow snow away from mailboxes. The city does not have the manpower to do that additional work, and by city ordinance, property owners or renters are responsible for clearing their own sidewalks and driveways.

We hope this gives you a good basic understanding of what happens during a snow or ice event, and we all hope for a nice uneventful winter!

## PUBLIC NOTICE

The Environmental Protection Agency (EPA) would like to announce to the community that the Five-Year Review process has started for the **Reynolds Metals Company Superfund** site in Troutdale. A Five-Year Review is EPA's regular checkup on a Superfund site that has been cleaned up—but that still has some waste left behind. Five-Year Reviews ensure the cleanup continues to protect people and the environment. Soil cleanup was completed by 2006, which included removal of contaminated materials and demolition of the plant. A groundwater extraction system that cleans contaminated water is still operational, and regular groundwater sampling and monitoring continues. Recent analysis indicates that no unacceptable ecological risk is found in the Columbia and Sandy rivers from groundwater entering the surface water. An updated groundwater model of the site is being evaluated to determine if additional cleanup actions can be identified to enhance the cleanup of groundwater, which is primarily contaminated by fluoride. The former Reynolds Metals Company site has been redeveloped and is called the Troutdale Reynolds Industrial Park. Additional information about the site can be found here: [www.epa.gov/superfund/reynolds-metals](http://www.epa.gov/superfund/reynolds-metals)

The EPA will perform an inspection of the Site in October, but we are interested in your comments beyond the inspection date. **If community members have observations, information or concerns pertinent to EPA's review, or would like to be interviewed for the review**, they can contact Piper Peterson, EPA Project Manager, by email at [peter.piper@epa.gov](mailto:peter.piper@epa.gov) or call 206-553-4951.

# Creating a parks plan to meet the needs of our community

Over the past year I have had the true pleasure of working on our Parks Master Plan and hearing the wealth of ideas, concerns, direction, and vision that have been brought into that process. It's been over sixteen years

since the City's Parks Master Plan was last updated. Our new Parks Master Plan is a 20-year plan with a mid-term review planned in ten years, which will be an excellent opportunity to gauge objectives achieved in that time frame,

and those that remain or have evolved. Many things can change in a community in ten years and so can the Parks and trails we maintain. Boardwalks get old, paint fades, and playgrounds need replacing. The

## OUT IN THE PARKS WITH TIM SEERY

Parks Master Plan needs to take the long view and achieves just that by keeping things in sight that need maintenance, the need for more park space and amenities, and the need for more skilled employees to maintain the beautiful parks system we have in Troutdale.

On another note: With the lack of rain we have experienced this summer it's a great time to prune your roses and get your flower beds ready for a long winter's rest. The rains will return soon enough, so take some time and get out and explore the many Parks, trails, and green spaces we have in this nice weather. Until next time be safe, be well! Tim

## Your holiday garbage schedule for November and December

- Thanksgiving Week**  
Regular Schedule for Residential & Commercial Collection
- Christmas Week**  
Regular Schedule for Residential & Commercial Collection
- New Year's Week**  
Regular Schedule for Residential & Commercial Collection
- Questions?**  
**Call Waste Management at 503-249-8078**

The next Street Sweeping day comes in mid-November. Go to [www.troutdaleoregon.gov](http://www.troutdaleoregon.gov) and type "Street Sweeping" in the Search box. Find your street on the map for the exact November date. Move your car, so the street sweeper can sweep the leaves off the street. It's that easy!

# Troutdale Fall Cleanup Event

**November 5th, 9 a.m. - Noon**  
**Troutdale Public Works Building**  
**342 SW 4th Street**

## This Event is for Troutdale Residents Only

*If I receive The Champion in my mailbox, does that mean I can take part in the Fall Cleanup?"*

### Not Necessarily.

Check your utility bill – if you do not pay your water bill to the City of Troutdale, you are not eligible to take part in Fall Cleanup events. Still unsure? Contact us at 503-665-5175.

- The City and/or participating vendors RESERVE THE RIGHT TO REFUSE COLLECTION OF MATERIALS FOR ANY REASON.
- All events are FREE OF CHARGE for Troutdale residents unless otherwise noted.
- Please recognize that event offerings are SUBJECT TO CHANGE or CANCELLATION.
- Please continue to check the city's Troutdale Cleanup Event webpage for up-to-date event information, or call Troutdale's Environmental Specialist at 503-674-3311.

For Comprehensive Accepted/Not Accepted lists, please visit: [www.troutdaleoregon.gov/publicworks/page/troutdale-cleanup-events](http://www.troutdaleoregon.gov/publicworks/page/troutdale-cleanup-events)

## Oregon e-Cycles Recycling Event

by Green Century Electronics Recycling (GCER)

GCER's priority is to refurbish eligible electronic devices such as a mobile device or tablet. To help make it possible, please adhere to the preparation guidelines prior to the event drop-off found on the GCER website. For more information about data security and preparation of manufactured electronic devices for reuse, please contact GCER at 503-764-9963 ext.0 or visit their website at [www.greencenturyonline.net](http://www.greencenturyonline.net).

**Accepted:** AV equipment, batteries (alkaline, button cell, cell phone), cables/wires, cell phones, computers, computer peripherals, monitors, networking devices, printers, televisions, and most other small electronics.

**Not Accepted:** Ballasts, fluorescent tubes and lamps, ink/toner, media (CDs/DVDs, cassette tapes, floppy disks) and items containing Freon will **NOT** be accepted.

## Paper Shredding

by Shred Northwest

Secure on-site document destruction service for Troutdale community members. Please limit to four (4) grocery sized paper bags of paper, and remove paper documents from binders, binder clips, or plastic sleeves before shredding. This service will stop once the truck is full, but the truck has yet to be filled during past events.

## Pet Supplies for Reuse

by Multnomah County Animal Services

The City will be accepting the following used items on behalf of the Multnomah County Animal Services located in Troutdale: Cat and dog collars: Any size, break-away collars for cats, and no choke chains or studded collars for dogs, please. Dog leashes accepted.

## Food for Donation

by Birch Community Services

The City will be accepting the following used/donation items on behalf of Birch Community Services:

**Accepted:** Canned goods, shelf stable proteins (i.e., any type of nut butter, fish, meat, dairy), packaged pastas and dried beans (not in bulk plastic bags).

## Kitchen Items / Toys for Reuse

by Birch Community Services

### Accepted:

Cooking utensils (i.e., can openers, spatulas, whisks, measuring cups, tongs, etc.), but **no kitchen knives**, dish towels, hot mitts, sheet trays, small appliances in working condition (i.e., blenders, mixers, toaster, air fryer, etc.), "Like New" toys for children from newborn to teenager.

# Bulky Waste Drop-Off Collection

by Waste Management

**November 19 • 9 a.m. - 2 p.m. • at Troutdale Transfer Station • 869 NW Eastwind Drive**

**IMPORTANT:** Troutdale residents are allowed **three (3) free bulky waste items for drop-off**. To verify your Troutdale residency, please bring a recent WM statement. If you are a Troutdale resident who lives in a multifamily property without a WM statement, please bring a recent utility bill or other piece of mail with your address as proof of Troutdale residency. If you are not a Troutdale resident or bring more than the allowed three (3) free items, you will be charged accordingly. Items that do not meet WM's acceptable material criteria will not be accepted for drop-off.

**QUESTIONS?** Please contact Waste Management directly at 1-800-808-5901. If you would like to know if items you are parting with can be recycled, donated, or used, visit Metro's Find a Recycler webpage at [www.oregonmetro.gov/findarecycler](http://www.oregonmetro.gov/findarecycler) or call Metro at 503-234-3000.

### Examples of Accepted Items:

- Small Appliances – microwave, toaster, blender, air fryer etc. not containing freon
- Large Appliances – washer, dryer, dishwasher, oven, range top, etc. not containing freon
- Outdoor/Garage Items – Grills without charcoal or propane tank, scrap metal, windows, drained water heater (1), bicycles, exercise equipment, file cabinet
- Household Items – Mattress, box spring, carpeting (with pad), furniture, sinks, toilets.

**Not Accepted:** Household garbage, animal waste, car batteries, engines, concrete, dirt, sod or stumps, food waste, household hazardous waste, liquids, paint, propane tanks, refrigerators (and other CFC/refrigerant containing items), rock, roofing materials, concrete.

## A recap on filing police reports - and an easy way to report abandoned vehicles

As another year ends, we would like to leave you with a few reminders from the Sheriff's Office

by Captain Steve Bevens  
Chief of Police • City of Troutdale • Multnomah County Sheriff's Office

### How to File a Police Report Online

The Multnomah County Sheriff's Office provides an online, non-emergency crime reporting tool to the communities we serve. This allows you to self-report a crime by filing a police report online without having to call the non-emergency phone number.

Self-reporting is limited to non-emergency incidents only, where there is no immediate danger to people or property. Visit our website at

<https://mcsso.us/site/> to learn more and to file a report.

Use this QR code to file a police report

### How to Report an Abandoned Vehicle

We have made it easier to report an abandoned vehicle in Troutdale. Community members can call our Records Unit at 503-988-7300, or fill out a form on our website: <http://troutdale.info/abandoned>

We are asking community members to **be prepared** when they call or fill out the form **by having as much information as possible, such as the location of the vehicle and the vehicle description, including make, model, color and plate number or VIN.**

That's all for now. We're proud to serve the City of Troutdale, and we wish everyone a very happy holiday season! Steve

West Columbia Gorge Chamber of Commerce

## Happenings

Fall is definitely in the air, and this is a very special time in our area. We invite you to get outside and view some of the fascinating colors painting the hillsides from the tree leaves turning over. Make a trip to one of our salmon spawning destinations on the Sandy River, Tanner Creek, or Eagle Creek next to Bonneville Dam, and check out some of the spawning salmon going through their mating rituals to begin the next generation of fish.

We have many fun and family-friendly activities scheduled throughout the holidays and we encourage you to check the community calendars of Troutdale, Fairview, Wood Village, Cascade Locks, along with our own West Columbia Gorge Chamber of Commerce events calendar, at <https://westcolumbiagorgechamber.com/events/> Join us during the wonderful holiday festivities. We look forward to seeing you at one of these events.

*Ed Chin, President,  
West Columbia Gorge Chamber of Commerce*
