

Code Compliance Division

The Community Development Department's Code Compliance Division is tasked with promoting, upholding, and enforcing the codes and ordinances of the City of Troutdale. The services provided by the division include:

- investigating potential code issues that stem from complaints, tips, or observation
- encouraging pathways to code compliance before enforcement actions are required
- preparing courtesy notices, warning notices, citations, and trial documents if necessary
- educating the public on code provisions and how they relate to livability

We work in tandem with other divisions in our department, other departments in the City, and other agencies in the area to ensure the livability of our community. Legally, we are a separate unit from Troutdale's **Municipal Court**.
