Subtotal, Parks System Development Charge			\$0.00

VII. Grand Total, All System Development Charges

\$0.00

VIII. Agreement (Please read carefully. By signing below you accept and acknowledge this agreement.)

Applicant certifies that the above information is complete and accurate to the best of his/her knowledge. Applicant understands that the system development charges may be increased if any information is omitted, erroneous, or changes in the future. Applicant shall promptly notify the Public Works Department of any change to the above information and/or any change in tenancy. The system development charges are assessed based on fees in effect on the date the first building permit for any project impacting a public utility is issued. In the cases of facility expansions or tenant improvements not requiring building permits, charges will be based on the effective date of the expansion or lease, respectively. The charges listed above are based upon issuance of a building permit, or effective date if appropriate, on or before _____. If a building permit is not issued or the change is not affected by that date, the above calculations are invalid and must be recalculated once a new date is established. Applicant may be eligible for a refund of these charges due to a reduction in project scope. Applications for refund must be made within 90 days of payment and are subject to the requirements of Section 12.02.085 of the Troutdale Municipal Code.
